

## BFGoodrich Tires® Mint 400 Pit Support

BFGoodrich Tires the preeminent name in desert racing and title partner of the Mint 400 will again be providing complimentary pit support and tire services to competitors racing exclusively on BFGoodrich tires across all classes.

Located at the main pit in Primm adjacent to the start/finish line BFG services include refuelling, tire changes, light-mechanical, and fabrication to assist BFG customers across the finish line.

Pre-registration will take place on-line and may be linked through the Mint or BFGoodrichRacing.com websites approximately six weeks in advance of the event.

Tire services including pit drop-off will be off Fremont St. at the Off-Road Festival on Thursday, December 2, for both the Friday and Saturday Mint races. BFGoodrich cannot transport fuel, so competitors will be required to drop fuel off at Main Pit in advance of their scheduled race.
